

Candidate Reference : RD12

For more information on this candidate or to arrange an interview, please contact Andy Norton on (302) 307-4899 or andy@haroldpatrick.com

Position : Electro-Mechanical Technician
Location : Newark, NJ
Availability : Immediately

Qualifications & Training

Masters in Engineering Management

Postgraduate in Senior Management Studies

BSc in Electrical Engineering

Industrial Mechanic – Machine Tools, Metal Working & Industrial Maintenance

Industrial Electrician – Residential, Industrial & Electrical Controls

Industrial Mechanic Internship

Key Skills

PLC faultfinding (some programming) - Allen Bradley, Omron & Mitsubishi

Hydraulics, pneumatics and welding

Self Profile

Electromechanical Maintenance Engineer and Technologist with over 30 years of extensive expertise in maintenance, production and team leadership. Long track record in troubleshooting, rebuilding, overhauling and managing both maintenance processes and production.

Achieving optimize levels of production efficiency, minimizing waste and equipment downtime and ensuring safety compliance.

All of this, along with a challenging Teaching career in a Technical school and College during last 20 years.

HAROLD PATRICK
RECRUITMENT
Manufacturing & Renewable Energy

Career History

Jan 2014 – Dec 2023

Community College Professor

Hydraulics, pneumatics, technical drawings & material science

June 1988 – Aug 2022

Materias Primas

Manufacturer of bedding and spring systems

Maintenance Engineer / Manager

- ***Mechanical, electrical, hydraulic and pneumatic repair***
- Planned (PPM) and reactive maintenance
- Machinery installations
- ***Following blueprints***
- ***PLC faultfinding (some programming) - Allen Bradley, Omron & Mitsubishi***
- Welding and fabrications
- Facilities maintenance
- Coordinating materials flow, production line and maintenance tasks
- ***Optimized processes and minimized operational disruptions / waste***

Machinery / Systems Maintained

- Shpuhl and Fides Coiling Machines & Assemblers
- Gribetz and Emco Quilting Machines
- Porter, Union Special and Singer Sewing Machines
- Showa Steel Wire Drawing Machine
- Grid Top and Semiflex Assembler Machines
- Control panels
- Gearboxes
- Sensors and switches
